

November 20, 2009

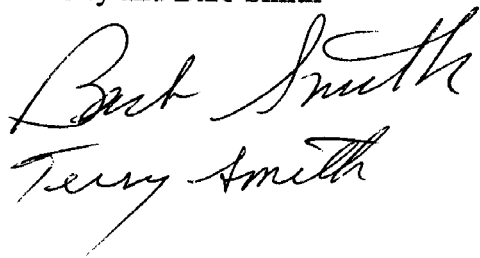

We would like to say thank-you to ABC Seamless for the outstanding job they did putting up the log siding on our house. It looks like a new house and the insulation will sure help our heating bills.

The crew that worked on the house knew their job and did the work fast and efficiently. They were always polite and had a sense of humor.

We appreciate your assistance and effort in upgrading our house and would highly recommend your services in the future. We welcome anyone who would like to see this log siding on a house.

Thank you,

Terry and Barb Smith
