

ABC SEAMLESS SIDING  
218 AVENUE D  
CHEYENNE, WY 82007

Dear Chuck:

We are writing to thank you and your crews for the terrific work done on our house this March and April. We had new siding, fascia, soffits, and gutters placed on our house, as well as all the windows, and a sliding glass door replaced. The workmanship was first rate, with the crews always timely, friendly, and very professional. The work took two weeks, which is exactly what we were quoted when we decided to work with your company. The product itself is top quality, and has made our ten year old house look brand new.

When first discussing the product with you, all of our questions were answered honestly, and quickly. Once deciding to have work done, the crews were out within a week. Communication was always consistent, and professional, and any changes made during placement of the siding were conducted without question, and without difficulty. Upon completion, anything that needed to be corrected was done so quickly and efficiently, and in a very professional manner.

We would definitely recommend your product and your company to all of our friends and family. From the product, to assistance with financing, everyone at ABC was friendly, courteous, and above all, concerned with what we wanted, and concerned with keeping us happy with the work done. We are indeed very satisfied customers. Thank you again.

Dear Chuck,

Bob and I would like to thank you for a job well done. If you remember we met you at the Greeley Garden and Home Show and you were fairly new in the area. You came to our home, out in the country, and gave us a bid on siding our house. Because your bid was very competitive with two others we met with you again and signed a contract. We truly are glad we did.

Not only are we pleased with the appearance of our home, but we are very pleased with the integrity of your company. Our house was very hard to side because of several corners, bay window and curves, but you had your crews working until everything was pleasing to us. Sad to say it is hard to find a company that truly does what it says it will do, but you have proven to be reliable and we thank you for that.

Thanks for sending Shawn to finish the job. He has a great attitude and work ethic!

Sincerely,

Dear Chuck:

We are so happy with the appearance of our home with the new Seamless Siding, Seamless Gutters, Soffit and Fascia. We have had many, many compliments already. (And we are already thinking of all the painting we *won't* have to do!)

More importantly, Al and I want you to know we appreciated the manner in which you explained your product when you came to our home to do an estimate. You were friendly and knowledgeable, but not "pushy." Your product almost sells itself; however, the person presenting the product has to know what they are doing. (They teach you well in North Dakota. ☺)

We also wish to compliment the professionalism displayed by your crews. They worked diligently and completed the project in a very timely manner. The gentlemen were polite and friendly, and did a marvelous job of cleaning up after themselves. This includes both the siding installers and the gutter crew.

Please pass on this information to them and place a note in their personnel file. We will be more than happy to recommend your product and your workers to our friends and neighbors. It is truly delightful to find a company of your caliber available to us here in Cheyenne.

Sincerely,

Margo and Al Stearns

Dear Randy,

We would like to thank you and your crew for your thoughtfulness and kindness that was shown us while we were visiting my daughter in Cheyenne. A crew that is so polite, clean and does such outstanding work we believe they should be thanked. They never used any foul language around any of us, which to us is important as we have three teenage granddaughters. This shows the exceptional leadership and training you have given your crew.

We also can not believe the insulation you install . When the windstorm and snow came up and dropped the chill factor to 30 below the crew closed off 45 feet of open wall before they would stop. With only the insulation that night we went into the room in our stocking feet, which we could not do in winter before the wall was torn out.

Gene is retired, before he retired he let contracts that covered most of the western part of the United States and has worked with many crews. Your product and crew our exceptional.

Sincerely,

Thank you ABC for finally fixing my ALCOA nightmare. I purchased Alcoa siding from a Greeley company in 1993. It blew off and hail knocked holes in it. This happened several times. The Greeley company says that fixing this is no longer their responsibility, so I have had to hire my own labor to fix my siding. I guess I thought I had better warranties than that. In 1998 more siding blew off and it had faded so bad, I couldn't find siding to match. (I was told it would never fade) My insurance adjuster suggested I call ABC Seamless. I researched this company and found their product to be excellent. I choose ABC because, Seamless seemed to make sense.

and I now have beautiful siding that  
is totally maintenance free.

- Thank you

P.S. I can now use my BBQ grill  
without worrying ~~out~~ about melting  
my siding.

To the ABC Seamless Team and to any potential ABC customers,

The stories you hear around town about ABC Seamless providing the best product and customer service are true! They are extremely interested in pleasing the customer through polite, efficient and friendly employees.

My wife and I are extremely "picky" on what we want because it takes a long time for us to save the money that we wanted to use to fix our home--let me assure you their price was fair and we are extremely pleased with the quality.

The only problem is now when we give directions to people trying to find our house we can't say "Go down Hirst and we're the junkie house on the right!". We have never endorsed a product, but are happy to do so now. Please feel free to have people call us if they have any questions.

Sincerely,

Thank you for the work on my daughter's town-house in Laramie

I appreciate you working with me on the installation date knowing I had to drive in from Riverton.

I'll give you a call in the near future to measure and give an estimate for the front window we will be replacing either in the early fall or next spring along with possibly the back door.

Once again thanks.

Larry Chouinard

Ps. The two installers were very professional and completed the job in good time.

Dear ABC-

Thank you so much for a great job.  
Your team is very professional and  
courteous from the office to your  
hard working installers.

I am very pleased and will look  
forward to doing more business with  
you when I replace windows.

Again my thanks -

Janet Hillian

I appreciate your  
very respectable work  
and sincere verbalizing  
in working in the  
gutter work. Charlie,  
Yeesentay<sup>(sp?)</sup> and his helper  
who came to Laramie  
- have all been "quality"  
people in their word  
and work - Thank you.

We want to take this opportunity to tell you about the excellent job your crew did installing the siding on our sunroom. They were fast and efficient both days; despite rain and cold. The outer sunroom walls look wonderful and the cladding on the windows and door frames are more than great. It was just what that area needed. Also, that they clad the front door thresh hold was unexpected and very welcome. When the job was finished the yard was picked up and in good shape with no nails or mess.

And most important, our Siamese cats enjoyed watching them (well they would have said helping), while being busy running back and forth between the front and back windows to see what was going on outdoors.

This is the third time your company has did work on our house...each time the work has been done with excellent workmanship.

Thank you for your continued help with this house,

Roy and Roberta Stalder

We would like to say thank-you to ABC Seamless for the outstanding job they did putting up the log siding on our house. It looks like a new house and the insulation will sure help our heating bills.

The crew that worked on the house knew their job and did the work fast and efficiently. They were always polite and had a sense of humor.

We appreciate your assistance and effort in upgrading our house and would highly recommend your services in the future. We welcome anyone who would like to see this log siding on a house.

Thank you,

Employees of ABC Seamless,

**What a great group of employees you have at ABC Seamless.**

Upon completion of siding on our home, we had lost our Direct TV. A few days later Josh from Direct TV came out to see if he could locate the problem. Josh discovered the problem to be the cable behind our new siding. Josh wanted to drill a hole in the new siding and run a cable on the outside of our home. You can only imagine the look of fear on my face at this point. Right away I called Randy and explained the problem to him. The solution was to have Brian and his crew come back and run a new cable and replace the siding. When I had gotten off the phone that day with Randy, Josh wanted to know who had installed our siding and where they were located at. After telling him it was ABC Seamless from Cheyenne, his response was: "They have awesome customer service and he has never seen a company so willing to come back out and fix a problem like we had and that usually the company will just take a hit against the Better Business Bureau." As Josh is telling me this I'm thinking to myself "What a great company." I have been through 4 name changes at the bank where I work and have realized over the years that it's not the name of the company that makes it great it's the employees that work for the company that make it great. So, I personally want to thank:

**Randy** – You made an extra trip to Kersey to explain everything again to me when I couldn't be there the first time you meet with James and you handled our Direct TV problem with concern and in a timely manner and have always been so pleasant when I have spoke with you on the phone and for that I thank you.

**Brian and crew** – They did such a wonderful job on our home, were very easy to work with and fulfilled all our special request when they were here.

**Bruce** – Very prompt on returning phone calls and came out the second time with Brian to fix our home. It was nice to meet him.

**Jodi** – Very polite and answered all questions.

Please share this letter with you staff and again "Thank you" for a job well done. We love our new home.

Your crews recently finished the siding and gutter work on our home in Fort Collins. We are pleased with the results and especially like the new fresh appearance of our home.

The gutter crew worked diligently to accomplish their task in one day. Dillon and his co-worker kept to task but when questioned about anything Dillon was always gracious and took time to answer the questions.

As for Roy McHodgkins you must surely know you have a gem of an employee in him. He takes the work seriously and is most particular and detailed. His assistant Tim Armstrong was a ray of sunshine each day. Both men were always cordial, kind, considerate, and diligent to their tasks.

We have had tile installation, carpet installation, wood floor installation, and a sundry of other minor services provided at our home. ABC's crews were the first wherein we, the customer, did not have to deal with poor dispositions, sullen attitudes, lazy excuses, and lack of information. It was especially appreciated that Roy would keep contact by phone.

We have passed your company name onto two different families who have expressed an interest in learning more about your product and service.

Again kudos to Roy and Tim for doing a big job so conscientiously. We thank you.

Sincerely,

  
Yvonne Barth and Darrell Johnson

Dear Chuck,

I would like to take this time. To thank you and your company. For doing such a professional Job ! on our house. We will never regret paying a few dollars more to have your company side and put gutters on our house.

Our neighbors used a different local company and you can tell a huge difference in the quality of work and workman ship between the two houses. Puts an new logo on "you get what you pay for."

I would also like to comment on the crew leaders. Roy and West. If it where up to me I would give them a raise. I hope you know how dedicated these two employees are and their crew. There was one day the weather was bitter cold and blowing. They called and let us know they would not be working, it is always nice to know what is going on. I also liked it when they showed up for work they would go over the work that was done the day before. ( I am guessing to make sure it was done right) Then when my husband would come home from work, they would go over everything that was done on our house that day with him to make sure he had no complaints. I can tell they take grate pride in there work. I know it is hard to find that caring attitude in employees now days.

I also liked the fact that when the Job was done you gave us a couple of days to look over our house to see if we found anything we did not like. Before asking to be paid. By the way the only thing we found was a beautiful house. Thanks to your Company!!!!

Sincerely, Jim and Cathy Fox
